GEOMATICS

Professor position

FACULTY OF FORESTRY AND GEOMATICS

DEPARTMENT OF GEOMATIC SCIENCES

The Department of Geomatic Sciences at Laval University is seeking to fill a tenure- track academic position in geomatics or any discipline which may contribute to the advancement of geomatics. Laval University (www.ulaval.ca) is one of the 10 largest research universities in Canada. The campus is located in Quebec City, which is recognised as one of UNESCO's world heritage cities. The Department of Geomatic Sciences (www.scg.ulaval.ca) consists of nineteen full-time professors, more than 120 undergraduate students, and about 60 graduate students (M.Sc. and Ph.D.). The research activities of the Department are coordinated primarily through the Centre for Research in Geomatics - CRG (www.crg.ulaval.ca) or are related to Canada research chairs or industrial chairs, but many professors are involved in the GEOIDE network (www.geoide.ulaval.ca), which has its Business Office at Laval University.

POSITION DESCRIPTION

The successful candidate will assume teaching tasks at the undergraduate and graduate levels and conduct high-quality research activities in geomatics or related disciplines. Research orientations related to this position, based on the interest and background of the candidate, should show an openness towards multidisciplinary collaboration. The candidate will be expected to supervise students of all levels, undertake research and development projects, and participate in the activities of the Department, the Centre of Research in Geomatics and the University. He or she could also be requested to conduct research and teaching activities other than his or her own specialization.

REQUIRED QUALIFICATIONS

A Ph.D. degree in a related discipline is required. Excellent knowledge of the fundamental sciences related to the field of study identified above is also required. Postdoctoral or equivalent practical experience would be desirable. It is also desired that the successful candidate be eligible to register with a professional order related to Geomatics - e.g., Professional Land Surveyors or Professional Engineers. Competency in French (the language of teaching at Laval University) or a willingness to learn French at a functional level within a 1-year period is required. English competency is also important.

SALARY AND RANK

The appointment will be made in accordance with the level of experience of the successful candidate and the Collective Agreement of Laval University in place at the time of hiring.

POSITION OPEN SEPTEMBER 2ND, 2005

The closing date for submission of a curriculum vitae, including a list of publications and the name of three referees, is November 1st, 2005. Please send your documents to the following address:

Département des sciences géomatiques
a/s Directeur du Département
Pavillon Louis-Jacques-Casault
Université Laval
Québec (Québec) G1K 7P4 Canada

In compliance with its Employment Equity program, Laval University intends to hire women in half of its vacant positions. In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada.
